Languages for Children

Our language tuition for children caters for the age group 4-12 years. Your child can learn a language in a fun and supportive educational environment.

Languages are taught in a multi-sensory way that includes singing, craft, games, writing and reading.

Language lessons relate to topics that are familiar to the child including family, food and weather. Students are given homework to reinforce lesson themes.

Each tutor is experienced and fluent in his/her language. Lessons are taught in a way that inspires enthusiasm and fun.

Colin Baker "A Parent and Teachers' Guide to Bilingualism" states:

"The most important factor in the language development of a bilingual child is nothing to do with language. It is about making language fun, and a thoroughly happy experience for children."
